

# Bread made in Machine (made with Baking & Pancake Mix)

Now you can have warm, fresh bread at your fingertips... just let your bread machine do the work for you and enjoy! Please note: this recipe was developed before we created our [Bread Mix](#), which is preferred for making a loaf of bread.

## Ingredients

- ¾ cup very warm water
- 2 tbsp oil
- 2 eggs, beaten
- 1 TBSP honey or white sugar
- 3 cups [Pamela's Baking & Pancake Mix](#)
- 2 pkg instant yeast (4-1/2 tsp)
- ¼ tsp salt

## Directions

Place all liquid ingredients into bread machine, then add dry ingredients. Turn on machine using white bread setting. This recipe makes a 1½ pound loaf. Use a serrated knife to cut slices or freeze loaf first and then slice.

Try adding sesame seeds, poppy seeds or sunflower seeds to dough while mixing, or add ½ cup raisins and 1 teaspoon cinnamon.

This bread makes fantastic grilled sandwiches, cinnamon toast, and french toast.
